Port Washington, New York 11050

Dear Madlyn:

This is to advise you that the panel for project 8527 has been revised as follows.

<u>TEST</u>	<u>METHOD</u>	<u>PANEL REQUIREMENTS</u>
8527 (1 pack of B&H Classic Lights 100's plus ad)	Mail Placement/ telephone interview	200 B&H 100 NMF smokers 200 B&H Lights 100 NMF smokers 150 B&H Ultra Lights 100 NMF smokers 400 Cross Section Other Full Flavor and Flavor Low (7+) 100mm NMF smokers (See attached list)

The sample for this test should be pre-screened and contain smokers 18-54; B&H smokers may be 18-64.

The smoker sample for the non-menthol cross section should contain 30% males (41% of whom are 18-34 and 59% whom are 35-54) and 70% women (52% - 18-34 and 48% - 35-54).

Our test areas of Sacramento, Ca. and Oklahoma City, Oklahoma, Jacksonville, Florida and Seattle, Washington (see attached maps) should not be included in the sample.

I will assume responsibility for getting the correct ad to you when the product arrives.

If you have any questions, please advise.

Sincerely,

Jerry Isaacs
